About Me

A Senior Software Engineer with extensive experience in designing and developing scalable, high-performance systems. Proven expertise in cloud-native architectures, DevOps practices, and microservices development. Passionate about building innovative solutions with a focus on business outcomes, code quality, and efficiency. Skilled at working in collaborative, cross-functional teams to deliver impactful software.

Technical Skills

Key Technologies: Java, AWS (SQS, SNS, Lambda, Step Functions), PostgreSQL, MongoDB, DynamoDB, MySQL, Kafka, RabbitMQ, Terraform, Kubernetes, GitLab CI/CD, EventBridge, S3, Event Sourcing, CQRS, Saga.

Languages: Java, SQL, Bash, Python, Golang

DevOps & Version Control: CI/CD, GitLab, Terraform, Kubernetes, ArgoCD

Architecture & Patterns: Microservices, CQRS, Event Sourcing, Distributed Systems

Testing & Quality: Unit Testing, Integration Testing, Chaos Testing, Contract Testing

Work Experience

Duckie.ai | San Francisco, CA

Senior Software Engineer | Oct 2023 – Present

Designed and developed highly scalable and secure systems using Java on AWS, implementing services like Lambda and Step Functions.

Architected cloud-native solutions with a focus on performance optimization and cost-efficiency using S3, EventBridge, and DynamoDB.

Built and maintained microservices-based systems adhering to modern DevOps practices, leveraging Terraform and Kubernetes.
